meeting 22

date   2022-04-26 Tuesday

present   Ken, Stelios, Jos

Location   Cyberspace

What I did

- (show thesis)
- Methodology is well on its way

Friday meeting

- **major conclusion**: delay is both inevitable, and a huge opportunity to 'do the thesis justice'.
    - inevitable:
        - my current phase just is not enough & it became more and more desperate.
        - P4 would be either be a *very close call* with lots of nightwork, or be a total flop.
    - opportunity:
        - I can now bring the written thesis to a higher level of quality.
        - I might be able to do lots of bug / quality of life fixes, to make the app actually showable.
        - I might be able to incorporate some of Hugo's suggestions in the code.
